ECS Chair layout in the Church space

This layout is indicative, not definitive - based on current numbers in 2025

The ideal is to layout chairs in a semicircle, with gangways approx every 5 chairs

There should be a gangway path through from exit doors at the back of the church to the front of the church

The diagram on the left is on a grid system but the layout should be more semi-circular as per diagram on the right

AV CONSOLE					
			1	2	3
	4	5	6	7	8
	9	10	11	12	13
	14	15	16	17	
	18	19	20	21
